

Midtown Worship Team Vision

My vision for the Midtown worship team is to create a lifestyle of freedom, growth, joy, and unity amongst our congregation, neighbors and Butler students. I desire for everyone-no matter where they are in their walk - to enter our building and feel peace. I want them to know this is a special place to come and be filled with the presence of God through song and authentic relationships that are lead by the way of Jesus.

To Do List to move us toward the above vision:

I desire for our worship members to be so in tune with the Holy Spirit that they bring healing and comfort to all in the room. I want them to grow, learn and live out what it means to **submit**, **create** and **serve**.

I desire for the players/tech team to continue to improve their technical skills. I hope to accomplish this via workshops (online or in-person), lessons, and coaching. I believe the more confident you are in your ability, the more you can lead others in the presence of the Father freely! God gave us gifts and we need to steward the well.

I desire for the upper room to become a recording studio for an after school program. A place where kids can learn how to play, sing, mix and build a great bond with our worship/tech team. Much like a youth group I believe it would give kids in our neighborhood a safe place to learn and utilize things they may or may not have access to. This in turn could help grow our youth group, worship teams, etc. It could also help build a bond with the neighborhood that we desire to connect with.

I desire for our Worship team to write our own songs specifically for Midtown, and maybe record an album using our new sound equipment. I believe this could be another way to cultivate interdependence and could bring a unique perspective to what God is doing at CG.

I desire to build a youth worship team and integrate them into our services. I also believe we should consider a 7pm service. This could be the time the youth band and maybe other college students could lead worship.

I believe this would help us to reach more in the community. I see the CG worship team members playing a mentoring role for these students and youth.

I desire for Worship Nights to happen quarterly. I believe as said in Ephesians coming together to praise the Father is a life giving experience and should be done on a regular basis.

I desire for others to feel a part of our church via FB Live creating accessibility to our congregation.

Finally I desire to expand our Midtown worship playlist and players as our potential congregation grows.
